

## Fashion Merchandising Degree Plan

Instructions: Determine how many years it will take you to complete your degree including the general core, other degree specific requirements, and minor area of study. The FAMD degree consists of a total of 120 credit hours, and all FAMD specific courses are 3 credit hours each. Usually, you complete 30 credit hours in a year for a 4 year degree plan. You can always ask your Sam Center advisor when you meet with them or review your Degree Works. Once you determine your timeline, you can plan to take the FAMD courses listed for that timeline and you would just add other courses needed for your degree to reach your desired courseload for each semester.

Key: WE = Writing Enhanced Course  
 ACE = Academic Community Engagement Course  
 \* indicates you have options of which semester/year to take the course

2 Year Plan
